

Outbound SDR Framework - Mohammed Hassan

Overview

Outbound sales framework built from high-volume customer-facing sales and early-stage SaaS SDR exposure. Focused on structured outreach, qualification, and pipeline discipline.

Core Sales Principles

- Control conversation through structure
- Prioritise discovery over pitching
- Prospect should speak most of the time
- Qualify quickly
- Maintain CRM discipline

Cold Call Structure

Pattern Interrupt: Introduction, permission-based opening

Insight Line: Contextual relevance, no pitching

Discovery: SPIN (Situation, Problem, Implication, Need-Payoff)

Qualification: Pain, decision, urgency

Close: Permission-based next step

CRM & Pipeline Discipline

Accurate logging of all interactions, structured pipeline updates, clear qualification notes for handover.

Tools

Salesforce, Dialpad, Lusha, LinkedIn Sales Navigator, AI-assisted prospecting tools

Core Strengths

High-volume outbound, objection handling, rapport building, KPI consistency, coaching experience, structured sales execution

Closing Principle

Every interaction follows: Contact → Relevance → Discovery → Qualification → Next Step
